Resume

EXPERIENCE:

January 1976 to Present - NTA, Inc., Nappanee, IN.

Vice-President/General Manager of Consultant Engineering Firm with direct responsibility in the following areas:

1. Responsible for mobile & modular, manufacturers code certification and compliance in the following areas: structural, mechanical, electrical, plumbing, building, fire safety and accessibility.
2. Direct responsibility for IPIA/DAPIA function. Responsibilities include initial plant certifications, Dapia review and inspector training.

3. Provide liaison for manufacturers to states and regulatory agencies to maintain code compliance. Participate in HUD and IBTS meetings.
4. Assist manufacturers and dealers in resolving consumer compliant problems. Monitor IPIA responsibilities under Sub-Part I.
5. Provide Professional Certification and design of commercial structures and assist in submittals through state agencies. Provide structural, electrical and heat loss calculations.
6. Provide expert testimony in law suits for manufactured structures. Inspect homes on-site for consumer complaints.

April 1975 - December 1975 - Wickes Homes, Argos, IN.

Product Engineer directly responsible for the following:

1. Review all plumbing, electrical, and mechanical production drawings for code compliance for in-plant use.
2. Review actual product being manufactured in-plant for code compliance and conformance to production drawings.
3. Responsible for all new designs and new product line to verify that code compliance is met.
4. Responsible to review all new materials to be used in the home for proper code approvals and to insure proper installation.
5. Responsible to verify that all products meet the code requirements through calculations. (Structural, Electrical, Heat Loss, and Duct Sizing, etc.)
6. Responsible for actual testing performed on the components of the unit (rafter testing, floor testing, sidewall testing, interior partition testing, heat duct testing, etc.)
7. Responsible for all code submittals to state and regulatory agencies.
8. Responsible for establishing and maintaining in-plant quality control procedures.

1972 - 1974 C.S.A. Engineering, Inc., Elkhart, IN.

Responsible for engineering functions of approximately 10 mobile/modular manufacturers as follows:

1. Submit and maintain all state and third party submittal packages.
2. Responsible for electrical, plumbing and mechanical drawing review for code compliance.
3. Review actual in-plant production method and product for code compliance.
4. Responsible to verify that all products meet the code requirements through calculations (Structural, Electrical, Heat Loss, Duct Sizing, etc.)
5. Provide liaison between manufacturer and various state and regulatory agencies.
6. Inspect Mobile Homes, Modulares, and Recreational Vehicles for Code Compliance Certification.

1971 - 1972 - Underwriters Laboratories, Northbrook, IL.

Product engineer responsible for the following:

1. Review submittal from mobile/modular manufacturers for code compliance.
2. Review actual product in-plant for code compliance.
3. Write follow-up procedure for manufacturers for inspectors.
4. Verify that products meet code compliance through actual calculations.
5. Involved in actual testing of mobile home components.
(Trusses, windows, etc.)
6. Inspect Mobile Homes for Code Compliance Certification.

1970 - 1971 - Flour Corporation, Joliet, IL.

Instrument Man. Physical Survey Layout of Gulf Oil Refinery.

1968 - 1970 - Peller, Tanck & Gertsmier, Valparaiso, IN.

Survey and draftsman. Physical layout of housing subdivisions. Drawings of topographic and lot layouts.
